## Description

**BY APPOINTMENT ONLY**  
**OWNER WANTS BOAT SOLD!!!**  
**NEW ENGINE!!!**

At the head of our docks is a classic blue sailboat named Bliss. She is a 1977 Fuji 32' cutter sailboat built in Yokosuka, Japan. Based on the Mariner 31, these were the proper size and design of boats to comfortably cross oceans. The first woman to single-hand the Pacific sailed from Japan to the US on a Mariner 31 ketch. This cutter rigged sloop is easier to sail! Bliss was repowered in Feb. 2021 with a Beta Marine 20hp diesel and had a complete bottom job (epoxy barrier coat with Trinidad HD paint). She has been severely loved and upgraded over the last year and a half and is ready for long voyages! Sails are new and crispy and the standing and running rigging replaced!!!
