## Description

Searching for the legendary Bristol Channel Cutter 28? Designed by Lyle C. Hess, and built by Sam L. Morse Company Inc. this well-loved Bristol Channel Cutter 28 may be the cruiser you've been searching for and dreaming about. Based on proven pilot boat designs; heavy displacement, long waterline with wineglass sections and hard bilges, BCC rigs carry lots of canvas, gear, and sail fast on all points of sail.

With a light interior, and minimal teak maintenance, this classic boat is set up for serious sailing. Not a dock queen, Bristol Channel Cutters are recognized passage makers, known for comfort at sea and their speed, often making 150 mile days. From the double action 2 speed S-L anchor windlass to the lift-up Aries Windvane, Shaula is close to the Pardey tagline boat: "go small, go simple, go now". There is even a Fatty Knees Dinghy!

Well traveled from Seattle to the South Pacific, this boat has the Bora Bora pic to prove it! An original owner boat, Shaula is in Seattle, just waiting for another loving owner to care for her.

NOTE: Please open YW Tab "OTHER DETAILS" Below, for More Info! Thanks!

## Information & Features

### Dimensions

LOA: **38 ft**  
Beam: **10 ft 2 in**

### Accommodations

Heads: **1**

## S/V SHAULA
