Description

NEW LISTING!!!

By Appointment Only

Introducing The **Fantail Motor Yacht**

Conceived as the ultimate in fuel efficient long range cruising yachts, the fantail required nearly four years of development, refinement and no compromise construction. The result has been a yacht that has set a new standard for the word quality.

Configuration - Raised Pilothouse, Salon & Galley, Covered Side Decks (Europa Style), Enclosed Fantail, with Two Cabins, & Two Enclosed Heads.

She stands out for her design, excellent construction & attention to detail. From her beautifully radiused fantail stern to her massive stainless steel anchor chock, the feel is that of a small ship. She incorporates a full walk around and an inlaid deck with a 42 inch high weather screen aft of the pilothouse, giving the feeling of complete security when walking the deck. Her fantail lounge contains a curved settee with an inlaid teak table that will provide for many intimate conversations protected from the elements by the weather screen and optional weather curtains
