## Description

**NEW LISTING!!!**

**By Appointment**

**If your Looking for a Tug - You Owe it to Yourself to Preview this Tug!!!**

Lord Nelson had (75) 37' Victory Tugs built between 1091 & 1989. The Yacht's dramatic sheer lines were inspired by New York City's Moran Tugs of the 1950's & 1960's. Jim Backus specifically incorporated the superstructure & raised bow which give the Victory Tug the appearance of a working tugboat. Below the waterline, the full displacement hull has elements of a Maine Lobster Boat shape with a full-length ballasted keel extending under a single propeller.

**Victory Tugs with the full-displacement hull are very sea-kindly and economical Pacific Northwest cruising yachts with a spacious living area. Double solid teak dutch doors located on the port and starboard sides of the pilothouse gives the skipper great visibility to make maneuvering a simple task with a Bow Thruster. Then there are double solid teak aft salon doors for great ingress and egress from the salon to the cockpit.**

**Last but not least is the gorgeous teak interior that rivals any of this vessel's competition.**

**This is a great Pacific Northwest, San Juan Island, Canadian Gulf Islands & Desolation Sound Cruising Vessel. You even go up the Inland Passage to Alaska.**
